X Applicant(s) submit herewith Forms PTO/SB/08A and PTO/SB/08B-Information Disclosure Citation together with copies, of patents, publications or other information of which applicant(s) are aware, which applicant(s) believe(s) may be material to the examination of this application and for which there may be a duty to disclose in accordance with 37 CFR 1.56.

The items listed on PTO/SB/08A and PTO/SB/08B are either in the English language or an English translation is provided, therefore, no further explanation is required, with the exception of the following non-English reference. A concise explanation, as presently understood, is as follows:

DE 4242992 (Esselte Metro) teaches a theft protection device that uses at least one security element (4, 5, 6) directly embedded in the compact disc material or attached to the compact disc (1) as an integral part which is not removable. A security system is activated upon attempted removal of the compact disc via a postal detection system.

The security element may be embedded directly in the packaging of the compact disc or in the compact disc label. Pref., the security element is made of a soft magnetic material, e.g. a series, of soft magnetic strips which are angled relative to one another.

Applicant submits that the above references taken alone or in combination neither anticipate nor render obvious the present invention. Consideration of the foregoing in relation to this application is respectfully requested.

It is requested that the information disclosed herein be made of record in this application.

Respectfully submitted,

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313.
